We request that our customers, who choose to come into the store to have a landscape design drawn, bring with them the following items if possible: photos of the area you would like designed, if you can not print them off, we can work with your camera's viewing screen. (If the sales computer is available, we may be able to hook your camera to our computer with your USB cord.) We also need measurements of your home, with windows, stoops, and doorways drawn in. We are happy to help walk-in customers on a first come-first serve basis. Appointments can be made by calling 815-939-9670 for the Kankakee store or 815-939-6448 for the Bourbonnais store. For in-store drawings, please plan to stay with the designer while they works on your drawing.
